III. Campaign Activities:

We worked in an organized manner and active way towards a particular goal typically for common social cause given below:

National Education Policy 2020 (NEP)- Joint Action Campaign Activities:(Federation For Protection of Education – TamilNadu and Pudhucherry)

Education is the basis for the development of a nation. A country which stoutly protects its value system, individuality, history, tradition and cultural standards alone can prosper in this competitive world. When the education was in the State list in the past, States all over India comparatively catered to the needs of the people. On the contrary the New National Education Policy is inversely different. Obviously unified effort alone is the need of the hour to combat the NEP. Therefore, people should mobilize mass struggles and give political pressure to all political parties and societal pressure to movements, organizations, academics and so on. Then only we can achieve this lofty ideal.

The State Coordinator discussed with the Core Team members regarding the next course of action. Then, we organized a Planning Meeting on 11th October with the core team members to plan the next course of action. Then we organized a Planning Meeting on 13th October with the core team members to finalise the action plan. Thereafter, we organized Planning Meeting on 17th October with the core team members to plan the next course of action.

IV. Impact:

- 1) A newborn girl baby was thrown away into the garbage and it was founded by the local people. The information was brought to the attention of the Regional Coordinator over a phone call from a local activist. He immediately undertook needed action and safely rescued the baby. The abandoned girl baby was handed over to a Specialized Adoption Agency viz., SOCSEAD.
- 2) Trichy Regional Coordinator intervened in a POCSO case of a 17 year old girl at Eachampatti, near Manachanallur. Because of our intervention all the three accused were arrested in connection with the sexual abuse.
- 3) The National Commission for Protection of Child Rights (NCPCR) directed 8 states on 28th Sep 2020 that account for 70% of children in care homes to ensure their return to their families. As per the instruction of the Director, we had a discussion with Adv.Martin consequently the State Coordinator prepared relevant "Legal provisions to challenge the order of the NCPCR." We

also discussed this issue with “HAQ,” a National level Child Rights Organization team and requested them to issue a statement against the order of the NCPCR. They issued a joint statement condemning the stand taken by the NCPCR.
